

Nexus[®] 100 Recycling Bin System

User case studies
are available
www.bins4recycling.com

The exciting Nexus 100 is a stylish and modern recycling unit designed to co-ordinate with the Nexus range and enhance office environments. The unit offers excellent flexibility to match diverse recycling requirements, and can be sited side-by-side or back-to-back to create a recycling centre.

Specifications

Recycled
Material

Design Features

- Sack Retention System.
- Pivoting Lid and Lid Stay.
- Key-lock (Confidential Paper Unit Only).
- Heavy Duty Wheels on Door.
- Drip Tray.
- Non Marking Durapol[®]* material Feet.
- Standard or Recycle Now Graphic Options.

Optional Extras

- Key-lock (for Paper, Bottles, Cans and Non Recyclables Units) (Locks can be retro-fitted).
- Metal Liner.
- Sign Kit.
- Rear Wheels (x 2).
- Combined Folding Sign and Wheel Kit.
- Reservoir Side Pod or Waste Bin Side Pod.
- Nexus Cup Bank (see page 8).
- Nexus 100 C-Thru Door (see page 9).
- Nexus Duo split waste stream for cans and bottles (see page 9).
- General Waste Flap Kit.
- Multi Bin Connector Kit.
- Oxo-Degradable Sacks.
- Woven Polypropylene Sack.

Dimensions

Width: 544mm
(width c/w one side pod: 677mm, width c/w two side pods: 810mm)
Depth: 397mm
Height: 1007mm
Capacity: 100ltr
Amount of A4 Paper: 30kg
Amount of 330ml Cans: 130
Amount of 500ml Plastic Bottles: 95
Weight: 12kg

Materials

Bin Body, Door, Lid and Apertures: Duratec[™]** material (contains 50% recycled material)
Sack Retention System: Durapol

Sack Retention System

The sack retention band can be lifted up to allow light waste such as cans or plastic bottles to be removed without removing the door.

Secure Key-Lock for Confidential Paper Unit

A keyed push lock is situated at the front of the unit for ease of access. The plunger locates into the oval hole in the door to secure the unit (can be provided as an optional extra on paper, can, bottle and non-recyclable waste units).

BS 8470:2006
Support your waste management contractor's compliance with BS 8470:2006
- Code of Practice for the Secure Destruction of Confidential Material.
"Confidential material to be collected should remain protected from unauthorised access from the point of collection to complete destruction."

*Durapol[®] material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure.
Durapol[®] material will not chip or rust, is easy to clean and never needs painting.
**Duratec[™] material has been specially created for use in internal environments. In addition to its attractive appearance it offers a blend of toughness, rigidity and dimensional stability.

Paper Bin

The large 100 litre capacity can hold up to 30kg of waste paper. (Frequent emptying is recommended to avoid accumulation of excessive weight.)

Drip Tray

Positioned in the base of the door, the drip tray will collect any waste liquid, which is deposited in the unit, preventing it from spilling out on to the floor. The drip tray can be easily removed for emptying and cleaning.

Rear Wheels

Nexus 100 can be supplied with two rear wheels, making the whole unit easy to manoeuvre.

Easy and Safe to Empty

Lift the lid to its open position, then pivot open the door. For lighter loads such as cans and plastic bottles simply lift the sack retention band up and remove the sack (as shown opposite). For heavier waste such as paper, the door can be removed from the unit and tilted onto the wheels attached to the base, ready for transporting the heavy waste a short distance to a collection area. With the door away from the unit, the sack can then be removed with minimal lifting.

Wheels are attached to the base of the door to aid easy emptying.

Nexus[®] 100 Recycling Bin Colour, Aperture & Graphic Options

Colour-coded apertures and clear graphics make Nexus 100 easily identifiable for effective use. If you require other colour/aperture combinations than those illustrated below, please contact our sales office on: 01253 600410.

Optional Extras

Sign Kit

A sign kit is available, which is fitted to the rear of the unit to provide additional signage at eye level and will help promote the recycling message. The clear sign front pivots to allow either a standard Glasdon sign or your own A4 sign to be inserted and replaced when required.

A new combined folding sign and wheel kit are available to allow Nexus 100 to be easily moved.

Standard Graphic Options for Sign Kits

Recycle Now Graphics Options for Sign Kits

As well as the standard recycling logo options shown, we are also able to offer a wider range of Recycle Now Graphics, to show your company's commitment to helping Britain become a recycling nation.

General Waste Flap

A General Waste Flap is available as an optional extra, to hide any unsightly waste and help contain any odours from within the bin. Simply lift the flap using the moulded-in finger grip. Available in Black and Grey.

Side Pods

An additional 8ltr side pod is available on one or both sides of the Nexus 100 unit. This can be either an 8ltr reservoir for the collection of waste liquids from cans or bottles before depositing in the unit, an 8ltr waste pod for the collection of small non-recyclable items, or an additional recycling bin for items such as CDs and DVDs, mobile phones or bottle tops. A standard range of graphics are available and the trim moulding on the pod is available in Red, Orange, Yellow, Coffee and Dark Grey.

Reservoir Funnel & Trim Colours

Standard Side Pod Graphic Options

Examples only - any logo and trim colour options can be attached to all Nexus 100 models.

Recycle Now Colour Options for Side Pod

It is recommended that grey side pod trims are used when Recycle Now coloured side pod logos are required.
